Your selected tyre

MICHELIN **COMMANDER II**

Cruiser/Custom

A tyre for all brands of cruisers, for a longer life with no compromise on handling or stability.

Long-lasting

Handling and stability

Dry grip

All-season

Key benefits

Michelin always aims to bring together multiple performances.

At MICHELIN, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tyre.

Long-lasting

MICHELIN Commander II tyres can last up to 25,000 miles for the rear¹. A new standard in longevity!

No compromise on handling or stability.

Thanks to their high-density, more rigid carcass (MICHELIN Amplified Density Technology), MICHELIN Commander II tyres are geared towards handling and feedback. The upper layers are made from aramid fibres on the rear, bringing together durability and light-weight materials for perfect stability even at high speeds.

Grips on wet surfaces

Their lengthwise treads cut through water and increase grip on wet surfaces.

1. <p>According to tests carried out in the United States by an independant body, Texas Test Fleet (900 N. Transportation Devine, TX. 78016), in March-April 2011, on public roads with the following sizes: 130/80 B17 (front) and 180/65 B16 (rear).</p>
